# VICKYWOOD

## WHO IS VICKYWOOD

VICKYWOOD derives its name from our namesake Vicky who surrounded herself with a young team who all have one thing in common: the passion to be close to nature, the thirst for adventure and the will to create authentic products that we can share with anyone who has the same passion for the Big Outdoors as us.

That will and that passion were what motivated us to sit down, make our gears grind and create the perfect rooftop tent. More than once we canned whole projects and started over until we reached a level of quality and finesse that we aspire to have in our products.

The result of that process is our collection of rooftop tents and accessories that provide maximum functionality and quality.

While the passion for the outdoors on the one hand motivated us to create new products it also made us look for opportunities to preserve something without which all our products would be only half as much fun: our environment and the beautiful nature of it. We found an opportunity to do so by teaming up with a non-profit organization called **Plant-for-the-Planet**.

# VICKY CARES

**NO PLANET B?  
THEN LET'S SAVE OUR PLANET A!**

The whole team at VICKYWOOD has one thing that connects us all: We are in love with nature. And when going outside, looking around and taking in everything our wonderful planet has to offer – how could we not!

There is almost no better way of recharging than spending time in nature. It is our aspiration to enable everyone to experience the tranquility that can be found in between forests, mountains and lakes.

That is why, with your help, we give ten euros to Plant-for-the-Planet for every rooftop tent sold. This allows us to plant five trees with the rest of the money allowing children to be taught about the protection of our environment and to become ambassadors thereof.

For further information please check [www.vickywood.com/vicky-cares/](http://www.vickywood.com/vicky-cares/).

## WHY VICKYWOOD?

### GREAT SELECTION

Something for everyone:

- light rooftop tents
- big tents for families which fit up to five persons
- hardshell tents / offroad tents
- hybrid rooftop tents
- matching camping equipment

### QUALITY - COMFORT - LONGEVITY

- usage of recycled fabrics
- highend 6 cm memory foam mattress
- robust tent fabric up to 320 g/m<sup>2</sup>, very high tear strength
- high water columnt up to 5000 mm
- ISO-cerficat for used fabrics
- antibacterial mildew resistance (Sanitized-certificate)
- outer fabric with water-, oil-, dirtrepelling coating
- TÜV-certified assembly material

### VICKY CARES - SUSTAINABILITY

The rooftop tents convive with recycled, high quality and resistant material which ensure longevity. Damaged products will be repaired with offerend spare parts if possible.

VICKY CARES - which means its important for us to give something back to our planet. Thats why we support the organization PLANT-FOR-THE-PLANET. For each sold rooftop tent there are five trees planted and training of children and teenagers for beeing climate justace ambassadors is ensured.

Also animal welfare is an important topic for us. We support the DOG CARE CLINIC E.V. with regular donations. They take care of sick or injured dogs and cats living on the streets in Sri Lanka and initiate castration and vaccination programs.

### ACCESSORIES

All important accessories are already part of the rooftop tents:

- telescopic aluminum ladder
- memory foam mattress
- 3D-Mesh (as of 2023)
- LED-lighting
- shoe bags
- assembly material

Additionally there are more optional accesories:

- thermo inner tent
- awning / sun shade

### CUSTOMER SERVICE

For us, personal and direct contact to our customers is very important. That's why our support service is always there for your questions.

FOLDING ROOFTOP TENT

# VICKYPEDIA

## FOLDING ROOFTOP TENT

Folding rooftop tents generally consist of two plates that form the floor of the tent by unfolding it via the long side. The fabric is unfolded automatically by the framework. Once standing folding rooftop tents are similar to regular tents when it comes to looks. Characteristically those tents are incredibly spacious and thanks to their many windows offer an incomparable view. We offer a multitude of sizes so no matter how big your family is we certainly have the right rooftop tent for you.

### ADVANTAGES

- very spacious, protected space next to vehicle
- huge reclining surface
- amazing sense of space created by windows and increased inner height
- less weight
- compact when folded for transport
- less expensive

### DISADVANTAGES

- more complex to unfold
- not as aerodynamic as hardcover which leads to noises while driving

## OUR FOLDING ROOFTOP TENTS

# ROOFTOP TENT TYPES

## HARDCOVER ROOFTOP TENT

When not in use they look like transport boxes. Setting up a tent can not get any easier or faster. Our pneumatic springs open the tent within seconds – no external power needed.

If you want to stay flexible and get back on the road in no time, a hardtop tent might be right up your alley.

### ADVANTAGES

- easy and fast set-up
- less fabric, therefore less clammy in humid surroundings
- less space needed on the side of the vehicle
- robust, high-quality hardtop

### DISADVANTAGES

- more expensive
- limited reclining surface
- no protected space next to vehicle

## OUR HARDCOVER ROOFTOP TENTS

CUMARU 135 + ECO

CUMARU LIGHT 127 ECO

CUMARU LIGHT 152 ECO

HARDCOVER ROOFTOP TENT

### HYBRID ROOFTOP TENTS

Camouflaged as a hardcover when not in use, spacious and big reclining surface when set up. To hit the nail on the head hybrid tents combine all the advantages of the previous types of rooftop tents.

They are incredibly easy to set up, offer a lot of space yet still stay compact when folded together and they are protected by a hardcover. If you are looking for a rooftop tent and want to have all the possible advantages, look no further than the Hybrids.

#### ADVANTAGES

- robust packaging
- big space and reclining surface
- fast set-up
- protection allows to keep it mounted during all four seasons

#### DISADVANTAGES

- increased weight
- more expensive
- needs more room to set up than usual hardtops

# TAKE A LOOK

OUR SUBTLITIES AND PECULIARITIES ARE FOUND IN THE DETAILS, DESIGN AND HANDLING.

# SMALL WILLOW

## OUR SMALL WILLOW IS SET TO TURN HEADS

Its symmetric style makes it an upgrade for almost every vehicle there is. Even though it is slim and compact the total length when set up is a whopping 2.40 meters and still offers an easy set-up.

Getting into the tent is just as easy when using our telescopic ladder which is made of aluminum. On the way up you can store your shoes in one of the bags integrated in everyone of our tents next to the main opening.

Having climbed up into the tent you are certain to be baffled by the incredible view offered by the openings on all four sides. Apart from the view these openings allow for an amazing climate inside the tent and protection against animals thanks to the mosquito netting built into every

window. Another highlight are the **two skyline windows** which can be used to marvel at the beautiful night sky while still enjoying the calm and peace of your tent.

If the moon and stars are not enough to enlighten nocturnal ongoings you can always rely on the built-in **LED lights** which can be easily powered by a power bank.

When laying down you will be greeted by our **memory foam mattress** offering you the utmost comfort. The memory foam used in our mattress will offer a sleeping experience that will make you feel at home.

The SMALL WILLOW offers protection against harsh weather thanks to its water repelling outer lining, stacked fabric and variously taped seams.

# BIG WILLOW

## SPACE MIRACLE WITH COVERED ENTRY

If you like space and comfort look no further because our BIG WILLOW is a special miracle. When set up it offers 2.40 meters of length.

Setting it up is just as easy as other folding roof tents even though the annex functions as a roof above the ladder. This annex offers protection against harsh weather even when climbing in and out of your tent. Storing your shoes in the shoe bags while being protected against rain is a serious quality of life improvement that every camper should treat themselves to.

When having arrived up in your BIG WILLOW you will be greeted by two luxurious windows, a second entrance opening and **two skyline windows** offering an incredible

view of your surroundings.

Like all our tents the BIG WILLOW has an **integrated light band** that can be powered by a 12W USB cable.

When going to sleep you will find our **mattress made of memory-foam** offers an impeccable sense of comfort close to your bed at home.

The BIG WILLOW offers protection against harsh weather thanks to its water repelling outer lineage, stacked fabric and variously taped seams.

# AWNING

BIG WILLOW - THE LADDER IS INSIDE THE AWNING

Our awnings for the BIG WILLOW tents are a versatile addition for your rooftop tent. They fit almost every height of vehicle thanks to the innovative zipp-system with which the height of the awning can be changed (165 - 180 cm or 200 - 220 cm).

Using an awning gives you the opportunity to create additional places for sleeping, storage or just enjoying time outdoors. Stacked fabric, waterproof zippers and retaped seams make the awning water repellent and protect you from people looking into your tent. At the same time, it can be opened on all four sides without any issue. This allows you to access your vehicle for whatever reason without having to take down the awning every time.

Winged guests going to have a tough time passing the mosquito netting on the openings so they should not give you any problems. Using the

telescopic poles included with the awning you will be presented with the opportunity to create a porch that will either protect you from the rain or will give you shadow to make hot days more bearable. The optional floor is also included with the awning and can be easily mounted using the zipper on the bottom end of the awning.

### THERMO-INNER TENT

Our inner tent made of polyester creates a warm and cozy cave that keeps you warm even during the most freezing nights. Just hook it up at the corresponding points in your tent and temperatures below the freezing point will not phase you.

## ALREADY INCLUDED

### INCLUDED ACCESSORIES

All the quality and care are wonderful, but camping is a game of accessories. Because of that there is quite the number of these included with all our tents.

- **Telescopic ladder:** fits almost every vehicle, expandable up to 2.30 m, holds up to 150 kg, also available as 2.60 m
- **Accessory bag:** holds everything needed to mount the tent on your vehicle
- **Protective cover:** protects your folding tent against wind, weather and dirt while driving or storing
- **Shoe bags:** practical bags, used to store your shoes next to the entrance.
- **LED-lighting:** practical lighting with USB-connection inside the tents
- **Mattress:** cozy 6 cm memory foam mattress
- **3D-Mesh:** as of 2023 included in the folding tents

# BALSA LIGHT

## OUR BALSA LIGHT HAS ONE THING GOING FOR IT - ITS WEIGHT

Clocking in at around **55 kg** it is the perfect choice for all the smaller vehicles.

When set up it still offers the same 2.40 meters length and a very spacious room. The annex and the set up are the same as our BIG WILLOWS have to offer and will keep you warm and dry when entering and exiting the tent. The BALSA LIGHT also has our **practical shoe bags** included.

When inside the tent you will have a luxurious view to three sides and **one big skyline window** integrated in the roof. We wanted to reduce the weight and still offer you as much comfort as possible, so we still included the mosquito netting protecting you from

flying guests.

You will also be able to lighten up dark nights using the **light band attached** to the roof of your tent.

Our BALSA LIGHT offers protection against all kind of weather thanks to its stacked fabric, taped seams and water-repelling outer lining.

# LITTLE BAMBOO

## OUR SUPER-LIGHTWEIGHT

Perfect for small vehicles with little roof load: our super-lightweight folding tent LITTLE BAMBOO. With its weight of **only 44.5 kg** it is one of the most lightweight rooftop tents.

Thanks to its symmetric and compact form it fits nicely on almost every vehicle. Though it doesn't seem spacious at first sight, it still offers a 2.25 m length lying surface. The windows on each side open and close automatically, which helps with the extremely easy and fast set-up.

Getting into the tent is just as easy when using our telescopic ladder which is made of aluminum and can be adjusted to the height of your car. On the way up you can store your shoes in the bag integrated in everyone of our tents next to the main opening.

Having climbed up into the tent you are certain to be baffled by the incredible view offered by the openings on all four sides. Apart from the view these openings allow for an amazing climate inside the tent and protection against animals thanks to the mosquito netting built into every window. Another highlight are the **two skyline windows** which can be used to marvel at the beautiful night sky while still enjoying the calm and peace of your tent.

If the moon and stars are not enough to enlighten nocturnal ongoings you can always rely on the built-in **LED lighting** which can be easily powered by a power bank.

The LITTLE BAMBOO offers protection against harsh weather thanks to its water repelling outer lining, stacked fabric and variously taped seams.

# CUMARU

## FUNCTIONALITY, DESIGN AND DURABILITY

Our CUMARU is the rooftop tent for the roughest trips. High-quality pneumatic STABILUS springs help you setting up your nightly mansion within seconds without external force needed.

On the inside, you will have big windows on three sides and a protective aluminum cover on the fourth. A **huge skyline window** above the entrance creates a well-rounded look.

When not in use the CUMARU tents only add 18 cm (without racks) to the height of your vehicle and even though it is built using only the highest quality of materials only weighs around 80 kg. Of course, we also included a **memory-foam mattress** and additionally a mesh with our CUMARU

which helps to circulate humid air out of your tent. To keep the insides of your CUMARU as clean as possible you will find shoe bags next to the entrance. Apart from storage, these bags also offer ventilation so your shoes can air out and dry during the night.

As fast as you are set up, you are ready to get back on the road. Just pull down on the attached sling and the upper part of the box will slide down allowing you to close the clasps and be ready to continue your adventure within a minute.

Another highlight is the **rack that can be mounted on top of the tent** and supports weight of up to one hundred kilos. By being adjustable seamlessly it allows you to transport boxes, bikes, boats or whatever else you need on your next adventure.

# CUMARU LIGHT

## OUR PRACTICAL HARD SHELL TENT

Our CUMARU LIGHT is a triangle rooftop tent with a hard shell made of aluminum. Thanks to the STABILUS gas spring system, it opens up semiautomatically in just a few seconds. Inside you will have huge windows on three sides.

For setting up, you'll only need to unlock the two clasps and your tent will build itself up without external force needed. Just as quick you will be packed up and back on the road: simply pull down the top shell with the strap, push in the remaining fabric on the sides and close the clasps.

When not in use the CUMARU LIGHT only adds 15 cm to the height of your vehicle.

As usual, this tent is equipped with our 6 cm **memory-foam mattress** and the 3D-mesh which helps to circulate humid air out of your tent.

The used tent fabric is 320 g/m<sup>2</sup> ECO recycled polyester which is made from recycled plastic waste. For the production of one tent, app. 185 plastic bottles are used. Also, the tent fabric has a high water column of 5.000 mm.

Another highlight is the **rack that can be mounted on top of the tent**. It supports extra baggage with up to one hundred kilos and can be adjusted seamlessly to carry different things.

### CUMARU LIGHT 127

HIGH QUALITY MATERIAL

# MIGHTY OAK

## OUR ALL-ROUNDER

Folding tent and hardcover, comfort and easy set-up. All the things you are looking for in a rooftop tent, unified in one beautiful package – that is our MIGHTY OAK. Its flawless design makes it the cherry on top of every vehicle. Pneumatic springs make the set up easy and fast. For that just loosen the clasps on the bottom and the box will rise without further external force. Then just unfold the plate that forms the floor, and you are rewarded with a 2 m declining surface.

When done with the setup you can reach your rooftop tent by climbing up the telescopic ladder and will be greeted by an amazing, spacious room that does not only have windows on the left and right but also on the furthest wall where your head will be while sleeping. All of those are fitted with a mosquito netting to prevent unwanted guests during the night.

You will also find two bands of **LED lighting** integrated into our MIGHTY OAK that can be activated by use of a 12 Volts battery pack.

Your needs for comfort will be met by a **memory foam mattress** offering you sleeping conditions just as comfortable as home. Stacked fabric, taped seams and a water-repellent outer lining will keep you protected from the fiercest weather.

It is no coincidence that our hybrid rooftop tent is called 'MIGHTY OAK.' Thanks to its tough **hardcase made from ABS**, our MIGHTY OAK is well-protected and can stay on your vehicle all year round.

# OUR MATTRESS

## MEMORY FOAM - HIGH DENSITY FOAM

Viscous foam is also known as memory foam. This thermoelastic foam can be easily recognized by the fact that any deformation caused by pressure only disappears after a few seconds. If you lie down on the mattress, it yields accordingly at the corresponding contact surfaces depending on your weight and hugs your body exactly at the center of gravity lines.

### Important to know:

The full effect only becomes apparent when the foam is warmed by your body and thus becomes more pliable. This relieves pressure on the entire body and creates a feeling of weightlessness.

## THE SPECIAL FEATURES:

- pressure relief: perfect especially for side and back sleepers.
- Due to its closed structure, viscose foam does not provide a breeding ground for house mites and is particularly suitable for allergy sufferers and asthmatics.
- Due to the reduction of pressure points especially suitable for people with tension, joint problems, back pain or circulatory problems.
- Durability due to regular rotation of the mattress.
- Removable, washable cover with soft flannel top and water-repellent bottom.
- YKK zippers
- very stable

Available dimensions (W x L x D):

- 140 x 240 x 6 cm**
- 160 x 240 x 6 cm**
- 180 x 240 x 6 cm**
- 220 x 240 x 6 cm**

## 3D-MESH-MATTRESS

The 3D MESH MATTRESS UNDERLAY prevents moisture build-up, provides you with additional lying comfort and insulation against cold.

Available dimensions (W x L x D):

- 120 x 200 x 0,7 cm**
- 140 x 240 x 0,7 cm**
- 160 x 240 x 0,7 cm**
- 180 x 240 x 0,7 cm**

# CARE INSTRUCTIONS

Make sure to open your roof tent regularly to air it out and let the tent fabric dry thoroughly. The walls and also the floor should be completely dry before you leave it closed for a long time. It can help to either raise the mattress slightly or let it dry outside the tent.

Before and regularly during every camping trip, the tent attachment to the roof rack should be checked to ensure the safety of the construction while driving and when stationary.

Also, check the fasteners of your tent cover and make sure that everything is tight and that nothing can open up or slip while driving.

If your zippers are stiff or often get stuck, you can also help with a little silicone spray. If there is a lot of tension in the fabric, it can help to have a second person pull the tent fabric together while you zip it up.

We recommend lubricating moving parts such as hinges, gas springs and ladders with a small amount of WD-40 or equivalent once a year to ensure longevity.

Although we use stainless steel for the fittings and fasteners on our tents, surface rusting may occur over time. This is completely normal and does not affect the hardness of the material. These deposits can be easily removed with isopropyl alcohol or WD-40.

# MARQUEE

## THE MUST-HAVE ON A CAMPING TRIP

The VICKYWOOD awning offers you enough covered space for pleasant hours. Whether for sitting comfortably, socializing or cooking. Here you can either stay protected in the shade or dry in the rain completely relaxed.

The awning is mounted individually on your roof rack via a rail system. Height-adjustable telescopic poles form the stable framework of your awning. Finally, connect the velcro straps to the poles and your shelter is ready in just a few steps.

- easy mounting on almost every roof rack and roof rail
- packed in a robust, weatherproof tarpaulin, it can remain mounted on the vehicle all year round
- super quick to set up and very stable
- rain - and sun protection

Rear Awning 140: **140 x 200 cm | 7 kg** | Color: black  
 Side Awning 200: **200 x 200 cm | 13 kg** | Colors: earthy-yellow or black  
 Side Awning 250: **250 x 200 cm | 16 kg** | Colors: earthy-yellow or black

# SIDEWALLS

## THE OPTIMAL BAD WEATHER SOLUTION

The VICKYWOOD side wall is an extension that you attach to your awning using a velcro system. In the twinkling of an eye you have created a wind and weather protected room with spacious windows, which are additionally equipped with flexible mosquito nets. The ideal place for cooking, eating, socializing or just to linger when the weather is not so cooperative. The set consists of a fully enclosed room with four individual side walls. Easy to install and quickly ready for use.

- available for both awning widths (140 | 200 | 250 cm)
- set consists of four side walls with door and window
- door and window additionally equipped with close-meshed mosquito net
- easy assembly
- rain - and sun protection
- Color: earthy yellow, black | 140 only black

# SHOWER TENT

## UNINTERRUPTED SHOWERS?

The practical shower tent you can mount on your roof rack via a rail system infinitely variable. With two fold-out arms, our opaque shower tent is ready for use in less than a minute. At the bottom, the shower tent is open so that the water can seep into the ground and drain away. Equipped with an antibacterial silver coating, it prevents mold and odor and is also water repellent.

- Shower tent, changing room or private toilet tent
- incl. hook to hang your water bag
- incl. two pockets for soap or shower gel
- incl. hood for rain protection
- incl. LED lighting with USB-connection
- Color: black

Set-up (L x W x H): **100 x 100 x 180 cm**  
 Weight: **7,5 kg**  
 Folded (L x W x H): **105 x 15 x 15 cm**

# SHOWER CABIN

## MULTIFUNCTIONAL ALLROUNDER

The free-standing VICKYWOOD shower tent can be almost anything you need: storage tent, changing room, toilet and/or shower tent. It is set up in an extremely short time and offers a lot of space. The floor of the tent consists of a mesh panel which is also removable so that shower water can easily drain off.

- incl. bags and hooks for soap and towel
- inside with opaque coating
- incl. handy carrying bag
- Color: dark grey | white logo print

Set up (L x W x H): **155 x 155 x 205 cm**  
 Weight: **6,8 kg**  
 Folded (L x W x H): **105 x 17 x 17 cm**

# BEACH SHELL

## DIE PRAKTISCHE STRANDMUSCHEL

The light and compact beach tent is super quick to set up and take down. By pulling or pressing the loops in the middle of the side walls, the tent is automatically set up or folded down.

Thanks to the thin but stable polyester fabric and the fiberglass poles, the tent weighs only 2,75 kg. The V-shape gives additional stability and ensures rain, sun and wind protection. Folded up and stowed in the practical carrying bag, the tent only measures 115 x 12 x 12 cm and can therefore be easily taken anywhere. Perfect for a day at the beach, a picnic in the park or camping.

- incl. carrying bag
- Color: dark grey | white logo print

Set up (L x W x H): **app. 200 x 150 x 130 cm**  
 Weight: **2,75 kg**  
 Folded (L x W x H): **115 x 12 x 12 cm**

# CAMPING CHAIR

## CAMPING CHAIR DIREKTOR

Our foldable, comfortable camping chair is easily set up in only three steps. It comes with pockets on its side for smartphones or other equipment and is made from aluminum and washable polyester.

- Set up (L x W x H): **62 x 49 x 88 cm**
- Folded (L x W x H): **50 x 56 x 17 cm**
- Seat height: **45,5 cm**
- Weight: **4,9 kg**
- Load: **max. 110 kg**
- Color: black with VICKYWOOD-Leatherpatch

FOLDABLE CAMPING CHAIR

INCL. CARRYING BAG

# CAMPING TABLE

## CAMPING TABLE BAMBOO

This height-adjustable Bamboo campingtable with an aluminium frame can fit 2-4 people. With its small dimensions, a carrying handle and convenient cover, it can be taken almost anywhere: a picnic or barbecue at the lake, a camp trip or just in the garden at home.

- tabletop made of bamboo, frame of aluminium
- foldable, height-adjustable legs: **50-57-70 cm**
- with carrying handle and convenient cover
- Set-up (L x W x H): **110 x 60 x 50/57/70 cm**
- Folded (L x W x D): **110 x 30 x 8 cm**
- Load: **max. 30 kg**
- Weight: **9 kg**

## CAMPING TABLE ALUMINIUM

Practical, height-adjustable, foldable aluminum camping table for 1-2 people in an elegant black look.

- table top and frame made from high quality aluminum
- height adjustable legs: **41,5-60 cm**
- foldable
- incl. carrying bag with handle
- Set up (L x W x H): **83 x 48 x 41,5/60 cm**
- Packaging (L x W x D): **61,5 x 24 x 15,5 cm**
- Weight: **appr. 3,2 kg**
- Load: **max. 30 kg**

### WOODY LANTERN CAMPING LIGHT

Our dimmable lantern is quite versatile: perfect for the camping table, the rooftop tent or the terrace at home. It can either stand on its own or hang thanks to the convenient carrying handle. The combination of stainless steel and bamboo creates the perfect look.

The lantern can be charged via **USB- or USB-C-port**. With its integrated powerbank it can be also used for charging other devices like smartphones. For turning on the lamp you press the button on side, which then also allows to change the brightness.

#### Technical specifications:

- Lithium battery pack 3,7 V
- 3600 mAh
- Output: 3,2 W
- 2200K warm white
- 180 Lumen

#### Dimensions | Material:

- Height: 23 cm (without handle)
- Diameter: 13 cm
- Weight: 450 g (without battery)
- Material: bamboo, stainless steel, plastic

## LIGHTING

### ADDITIONAL DOORSTEP FOR YOUR CAR

With the help of our practical car door step, you can easily reach your vehicle roof. This allows you to easily stow bulky items on higher vehicles. The durable and robust anti-slip coating of the step ensures a safe and stable footing. The load capacity is up to 180 kg.

The rotatable rubber foot offers different angles of inclination to the door frame while preventing dents and scratches on the door frame. The so-called "mobile ladder" is compatible with most vehicles. Please check the door frame of your vehicle before use and whether it is designed for such a load.

- Packaging (L x W x D): **22,4 x 6 x 8 cm**
- Weight: **app. 1,3 kg**
- Load: **max. 180 kg**
- Material: aluminium, plastic
- suitable for many types of vehicles
- Color: silver or black

## DOORSTEP

# STORAGE

## ALUMINIUM CAMPING STORAGE BOXES

Our practical storage boxes made of durable aluminium are available in three different sizes.

# SERVICE

## HOW WILL I GET MY ROOFTOP TENT?

You chose your favourite VICKYWOOD tent - now there are several options for getting your tent:

- **Delivery by a carrier agency** – After you bought your tent, it can be sent to your homeaddress. Depending on the exact destination, this will take 1-2 weeks. The delivery times and costs you can find on [shop.vickywood.com/shipping](http://shop.vickywood.com/shipping).
- **On-site pickup** – You can pick up your tent at one of our locations near Augsburg or Hanover. You'll need a truck or a big trailer to carry it home. Our locations you'll find online: [vickywood.com/showroom/](http://vickywood.com/showroom/).
- **Pickup with assembly service** – Of course we can mount your new tent on your car for you. This will cost a little extra and can be booked at one of our locations. Our assembly service contains the mounting of the tent onto your existing cross bars and a detailed briefing of the handling. You should plan one hour for the whole process. Important are the cross beams on your car - they need to be on the roof already. Our support can help you find the right ones beforehand. More information on the assembly service in our FAQs: [shop.vickywood.com/FAQ-Questions-Answers#assembly](http://shop.vickywood.com/FAQ-Questions-Answers#assembly)

# VICKY VILLAGE

## VICKYWOOD SHOWROOM
